

TECHNICAL DATA SHEET

PRODUCT DESCRIPTION

Surface protection tape **PRIME[®] SPT** is a low density, black and white polyethylene film tape coated with a rubber adhesive on one side. The tape provides a cost effective solution for the protection of sensitive surface against dust, dirt and damage during storage, transportation and processing

APPLICATION AREAS

As per our actual knowledge, the fil is suitable for the following surfaces:

- Structured metallic surfaces.
- Structured plastic surfaces.
- Stainless steel.

TECHNICAL SPECIFICATIONS

Thickness	100µm
Colour	Black/white
Adhesive type	Rubber
Film backing	Polyethylene film
Adhesion to stainless steel	2.0 +/- 0.4 N/cm
Resistance against moisture	Good
Resistance against oil	Moderate
Resistance against solvents	Moderate
Resistance against UV	12 months*

*12 months UV-resistance according to Western European climate which corresponds to a 600 hrs. QUV test (QMP 48)

SURFACE PREPARATION

Before application of **PRIME[®] SPT** protection tape the surface must be free from oil, fat, dust and solvents and the tape should be applied at room temperature (>10° C and <40° C) When applied correctly the tape can be removed without leaving any residue.

PACKAGING

Available in standard profile widths as well as customized widths to suit customers profile dimension. We offer a quick turnaround service due to our in-house cutting facilities. Length - 100 meters.

SHELF LIFE

24 months in the original packaging.

STORAGE CONDITION

Temperature from 0 to + 25 °C •
dry warehouse • do not allow direct sunlight.

DISCLAIMER

The technical data contained herein is based on our present knowledge and experience and we cannot be held liable for any errors, inaccuracies, omissions or editorial failings that result from technological changes or research between the date of issue of this document and the date the product is acquired. Before using the product, the user should carry out any necessary tests in order to ensure that the product is suitable for the intended application. Moreover, all users should contact the seller or the manufacturer of the product for additional technical information concerning its use if they think that the information in their possession needs to be clarified in any way, whether for normal use or a specific application of our product. Our guarantee applies within the context of the statutory regulations and provisions in force, current professional standards and in accordance with the stipulations set out in our general sales conditions.
